Digital.ai Mobile App Testing – Mobile Plans – On-Demand	Per SIM Card Per Year (Subject to mobile provider's terms and conditions)	On-Demand
Digital.ai Mobile App Testing – Device Replacement – On-Demand	Per Mobile Device	On-Demand

Additional Terms:

For Customers testing on Apple Devices: For any testing on an Apple device (each, an "Apple Test"), Customer represents and warrants to have an active and valid registered Apple Developer Account under their agreement with Apple, Inc. (e.g., Apple Developer Program License Agreement, Apple Developer Enterprise Program License Agreement, etc. (each an "Apple Agreement")) at the time any such Apple Test is performed. Customer appoints Digital.ai Software, Inc., as their Authorized Developer (as defined in the Apple Agreement) for the duration of all Apple Tests. Customer understands that they are responsible to Apple for all actions undertaken in connection with each Apple Test including those actions that Digital.ai takes on your behalf.

Customer may be subject to a minimum of 10 Mobile Devices per data center.

Digital.ai Mobile App Testing – Shared Device – On-Demand; Digital.ai Mobile App Testing – Mobile Plans; and *Digital.ai Mobile App Testing – Device Replacement – On-Demand;* are subject to availability and Digital.ai's sole and exclusive discretion in select locations.

Digital.ai Mobile App Testing – Device Replacement – On-Demand is only available for purchase once per calendar year. Mobile Device replacements are subject to availability and Digital.ai's sole discretion.

Artificial Intelligence Features: If the Product or Service includes features that utilize artificial intelligence ("AI Features"), Customer acknowledges that: (i) Digital.ai does not guarantee the accuracy, completeness, or reliability of any outputs generated by AI Features; (ii) Customer is solely responsible for any decisions made or actions taken based on outputs from AI Features; and (iii) Customer agrees not to use AI Features in any high-risk or critical environments where errors or inaccuracies could lead to significant harm or damage.

Definitions:

"Mobile Devices" means mobile devices owned, operated, and deployed by Digital.ai for the benefit of Customer as described in the latest release notes.

A "Device Group" means a logical container of Mobile Devices within the Continuous Testing Cloud that can be assigned to one or more projects to perform different types of application testing.

"File Storage Service Capacity" means the file storage capacity within the Continuing Testing Cloud that stores binary applications and packages (e.g., APK and IPA files) that are available to be installed onto Mobile Devices, as well as provisioning profiles that are used for iOS application testing.

"Reporter" means a business intelligence system component of the Continuous Testing Cloud that collects Customer testing data and generates reports on an application or service under test.

"Reporter Storage Capacity" means the file storage capacity for the Reporter component.
