## Digital.ai Mobile Virtual Device (Emulator/Simulator) - 4 Concurrent Sessions Package - On-Site

Digital.ai Mobile Virtual Device (Emulator/Simulator) - 4 Concurrent Sessions Package - On-Site provides Customer on premises Software and a license key to the Continuous Testing Cloud and the ability to run up to four (4) concurrent virtual device sessions on-site for mobile application testing.

Product	License Metric	Deployment
Digital.ai Mobile Virtual Device (Emulator/Simulator) - 4 Concurrent Sessions Package - On-Site	Per License	On-Site

### Product or Service Limits

Limit Metric Type	Limit Metric Quantity	Impact
Concurrent Virtual Device Session(s)	Up to 4	Additional Virtual Devices beyond the limit metric are prohibited without additional purchase.
Continuous Testing Cloud (Cloud Management)	One cloud platform instance with cloud usage up to: <ul style="list-style-type: none"> <li>100 Projects; or</li> <li>10,000 Users.</li> </ul>	Digital.ai will have no responsibility to Customer or liability for failure to meet Support and Maintenance obligations for exceeded metrics and the Product may fail to perform as per Documentation

### Additional Terms:

**For Customers testing on Apple Devices:** For any testing on an Apple device (each, an “Apple Test”), Customer represents and warrants to have an active and valid registered Apple Developer Account under their agreement with Apple, Inc. (e.g. Apple Developer Program License Agreement, Apple Developer Enterprise Program License Agreement, etc. (each an “Apple Agreement”)) at the time any such Apple Test is performed. Customer appoints Digital.ai Software, Inc., as their Authorized Developer (as defined in the Apple Agreement) for the duration of all Apple Tests. Customer understands that they are responsible to Apple for all actions undertaken in connection with each Apple Test including those actions that Digital.ai takes on your behalf.

**Artificial Intelligence Features:** If the Product or Service includes features that utilize artificial intelligence (“AI Features”), Customer acknowledges that: (i) Digital.ai does not guarantee the accuracy, completeness, or reliability of any outputs generated by AI Features; (ii) Customer is solely responsible for any decisions made or actions taken based on outputs from AI Features; and (iii) Customer agrees not to use AI Features in any high-risk or critical environments where errors or inaccuracies could lead to significant harm or damage.

### Definitions:

“Virtual Device(s)” means both Emulators and/or Simulators.

“Emulator” means a virtual instance that mimics a mobile device’s hardware and software by re-implementing the device’s mobile software in a machine level assemble language.

“Simulator” means a virtual device that replicates the basic behavior of a mobile phone and its interface.
