Product or Service Limits

Limit Metric Type	Limit Metric Quantity	Impact
Minimum Number of Customer Mobile Devices	10	Customer Devices below the license metric are prohibited.
Digital.ai Testing Cloud (Cloud Management)	One cloud platform instance with cloud usage up to: 100 Projects 10,000 Users 100 Customer Mobile Devices per Device Group	Digital.ai will have no responsibility to Customer or liability for failure to meet Support and Maintenance obligations for exceeded metrics and the Product will fail to perform in accordance with the Documentation.

Additional Terms:

For Customers testing on Apple Devices: For any testing on an Apple device (each, an “Apple Test”), Customer represents and warrants to have an active and valid registered Apple Developer Account under their agreement with Apple, Inc. (e.g. Apple Developer Program License Agreement, Apple Developer Enterprise Program License Agreement, etc. (each an “Apple Agreement”)) at the time any such Apple Test is performed. Customer appoints Digital.ai Software, Inc., as their Authorized Developer (as defined in any Apple Agreement) for the duration of all Apple Tests. Customer understands that they are responsible to Apple for all actions undertaken in connection with each Apple Test including those actions that Digital.ai takes on your behalf.

Artificial Intelligence Features: If the Product or Service includes features that utilize artificial intelligence (“AI Features”), Customer acknowledges that: (i) Digital.ai does not guarantee the accuracy, completeness, or reliability of any outputs generated by AI Features; (ii) Customer is solely responsible for any decisions made or actions taken based on outputs from AI Features; and (iii) Customer agrees not to use AI Features in any high-risk or critical environments where errors or inaccuracies could lead to significant harm or damage.

Definitions:

“Customer Mobile Devices” means mobile devices that are owned, operated, and deployed by Customer that meet the Digital.ai Testing software specifications described in the [latest release notes](#).

A “Device Group” is a logical container of Customer Mobile Devices within the Digital.ai Testing Cloud that can be assigned to one or more projects to perform different types of application testing.
